

## Year 5 Blog - Week commencing 5<sup>th</sup> February 2024

### Making Music

In our writing lessons this week, pupils have been writing their persuasive piece of writing to persuade somebody to become an astronaut. They have included: rule of three, adverbials and rhetorical questions to their work.

In maths, pupils have been learning fractions of an amount. In our science lesson this week, pupils began to create a double page spread to showcase their learning of Space. This includes heliocentric and geocentric theories.

In RE, pupils have been creating a piece of work to show their understanding of how religion could influence a person to be good.

Finally, pupils have been looking at different music notes in our music lessons this week.

Pupils thoroughly enjoyed showcasing their work to their adults in our celebration assembly this week. We hope that the adults enjoyed celebrating the pupils successes with us!
