

Year 5 Blog - Week commencing 06.11.2023

An extremely happy week in Year 5! Pupils were incredibly pleased to discover that we were having a special visit from John Magee, our Kindness Coach! Pupils were able to spend some time hearing from John and discussing ways to support our emotional wellbeing, this includes strategies from the Happy Tank!

We have started a new writing unit this week, which involves writing to entertain, a story about Robin Hood! We have considered the 5 senses when writing a setting description of the forest.

In maths, pupils have been learning to multiply and divide by 10,100 and 1000. The teachers have been impressed by their understanding of this. Well done!

The pupils loved this week's experiment, where they used filter paper and coloured pens to understand the process of chromatography. They were able to separate the colour mixture into separate components.
