

Year 5 Blog - Week commencing 06.03.23: World Class Readers

This week Year 5 have had a fantastic week.

Maths

In Maths pupils have been focusing on decimals. This included rounding decimals to the nearest whole number and 1 decimal place. They also began to learn about percentages.

English

In English, pupils have been considering this terms big question 'Considering the risks of exploring further away from Earth is it ethical to send humans to Space?'

Science

In this week's Science lesson pupils learnt about friction. They conducted their own experiment where they tested how friction impacts a shoe moving across different surfaces.

Design and Technology

In DT pupils finished their CAM toys. We have seen some fantastic designs across the year group and have been really impressed by the pupil's CAM toys.

RE

In RE year 5 have continued to learn about different religions, world creation stories. This week we considered the similarities and differences across religions.
