

Week Commencing 09.01.2023: Tenacious Times Tables

Firstly, the year 5 team would like to welcome back the year 5 pupils, we are glad they all had an enjoyable and relaxing holiday.

Maths

The main focus this week has been multiplying by 2-digit numbers. This is a new calculation to most students and although it can be a little tricky the pupils have worked really hard and proven how resilient they are. They have made exceptional progress in using this skill and applying it to reasoning and problem-solving questions.

Art

Pupils have started their study on Peter Thorpe, the worked towards created an abstract piece of art using oil pastels. The combination of Peter's work and our termly topic (space) really inspired the pupils.

Writing

Over the next couple of weeks pupils are going to be planning and creating their own sci-fi narrative. Pupils have been learning how to create wonderful and imaginative characters and they are really looking forward to creating their narratives.

Reading

Pupils will be reading the book 'Cosmic' this term. The book is about a boy who is lost in space. Pupils have been using their vocabulary and clarification skills to understand the meaning of unfamiliar words. Pupils this week also had an opportunity to visit the infants or have them join us and I know they are really looking forward to the next visit.
