

Year 4 Blog - Week commencing 7th May 2024

Heart of the Jungle!

After the long weekend, the children in Year 4 have had an exciting week!

Our budding young writers have embarked on a thrilling journey into the heart of the jungle this week! With pencils in hand and imaginations running wild, they've been crafting their very own jungle stories. From daring explorers encountering exotic creatures to mysterious quests through dense foliage, their creativity knows no bounds! Through this activity, they've not only expanded their vocabulary and descriptive language but have also worked on punctuating speech correctly.

In maths this week Year 4 have continued with their unit money. During our lessons, they've been learning how to count, add, and subtract money with confidence. As well as, understanding the value of coins and notes in order to solve money problems.

In science Year 4 have continued learning about the wonders of the human body, they carried out a fun hands-on experiment investigating how the digestive system works. They have now moved on to exploring the structure and function of teeth as well as learning about the effects of sugary foods on dental health.
