

Year 4 Blog - Week commencing 22nd April 2024

Landmarks of India!

Year 4 have had another exciting week carrying on their learning about India!

In geography this week the children enjoyed using their chrome books to explore India on Google Earth. The children were set the task of finding key landmarks in India and answering different questions about their locations.

In Maths this week, the children finished off their decimal unit by working out the equivalent decimals to a quarter, half and three quarters. On Thursday the children put all they had been learning to the test in the end of unit assessment and they will now be moving onto learning about money.

In writing this week, Year 4 began writing their diary entry's based on the story 'The cloud tea monkeys'. The children worked extremely hard to include the different key features such, subordinate clauses, fronted adverbials, expanded noun phrases and show not tell to make sure their writing was detailed. They have been exciting reads!

In science this week the children continued their learning on the digestive system and are now able to sequence the process that take place when we eat food.
