

Year 4 Blog - Week commencing 11th March 2024

Making a Difference!

Building on our term Topic 'Making a Difference', the children had the opportunity to tick off one of their personal passport achievements, by completing a local walk observing and safely picking up litter. Year 4 were shocked to see the amount of plastic that had been littered and completed tables throughout their sessions analysing the quantity of each different material that had been left.

Another exciting highlight this week, was the pantomime on Thursday morning of The Jungle Book. The children enjoyed watching the characters on stage and singing along to the different well-known songs.

As part of Science Week, Year 4 took part in an exciting experiment investigating the relationship between leg length and speed. One by one the children carefully measured the length of their legs before taking part in a timed sprint across the playground. It was an extremely fun lesson and the children were shocked by the results!

For red nose day the children took part in a virtual dance and learnt lots of cool moves to Dua Lipa's song 'Dance the Night'.
