

Year 4 Blog - Week commencing 20.11.2023

Super Science Museum

This week year 4 went on their first school trip of the year this week! We got to explore the science museum and see lots of inventions through time!

Miss Roberts, Miss Cartwright and Miss Elias were so impressed with how fantastic all the children were, they represented the school brilliantly.

In science lessons this week we were looking at electrical dangers and how we can stay safe around electricity. We then created some eye-catching electrical safety posters!
