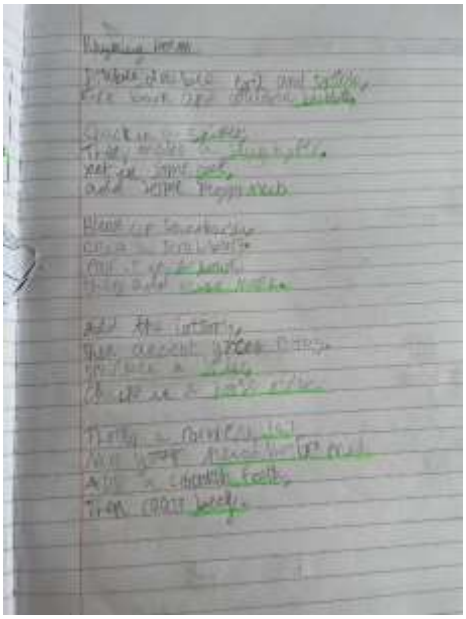
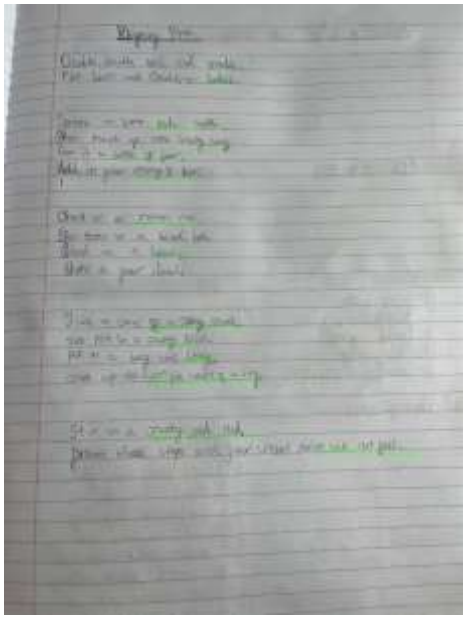
Year 4 Blog - Week commencing 16.10.2023

'Wicked rhymes'

This week in year 4 we have been writing our rhyming poems! These have been Halloween themed witch's spells.

We worked really hard to think of sensible rhyming couplets for our poems and tried to include some alliteration phrases!

In history this week we have been learning about significant Mayan inventions! Did you know they invented rubber, chocolate and calendars!




In geography lessons this week we learnt about time zones! We learnt that there are 24 times zones because there's 24 hours in a day! We then calculated the time in various countries compared to the time in London.
