

Year 6 blog – week commencing 24th June 2024

Marvellous Matilda!

Year 6 have been working hard on their production rehearsals, including the main cast, ensemble and technicians. Everyone in Year 6 have played their part, as well as the prop making team who have shown tremendous creativity and organisation this week.

Year 6 have also learnt all about Shakespeare, creating a detailed fact file on his life and his written work. We have also looked at the plots of Hamlet and Macbeth and identified what themes are used in his plays. We have also looked at the history of The Globe theatre and made comparisons between the old Globe theatre and the modern Globe theatre that we now have today.

We also had our London trip this week which was a great success, the children got the opportunity to see the professionals in action in the West End, watching Matilda the Musical. They also got to walk through and have lunch in the royal parks as well some sightseeing including a stop off at Buckingham Palace. We also visited the National History Museum as part of our Charles Darwin Evolution topic and learnt about the natural disasters and volcanoes as part of our Japan topic this year.

The children have had a very busy week including transition days for their new schools and deserve a well-earned rest this weekend!
