

## Year 6 Blog – week commencing 4<sup>th</sup> March 2024

### World Book day and Sushi making!

Year 6 have had a fun packed week this week!

We started off by researching and exploring climate change in writing. The children then learnt how to write a formal letter using formal language. They then utilised their learning this week and in previous weeks to write a formal letter to the Prime Minister – Rishi Sunak, to discuss his plans for climate change and his plans moving forward.

In Science, the children have discovered how blood vessels work, as well as how blood is pumped around the body when we exercise. The children were curious to understand why blood pumping round our body quickly is a good thing – this brought us back to our bigger picture ‘The circulatory system’.

In DT this week, Mrs Archer made Sushi with year 6, each class took turns to pack, wrap and roll their Sushi. Some of the children who tried it, really liked it, others not so much – as teachers we know Sushi has a distinct taste! The children packed their Sushi with Sushi rice, carrot and cucumber, wrapped it in Seaweed; The children dipped the Sushi into Soy sauce and gave it a try! Well done Year 6.

For World Book Day, the year 6 team dressed up as ‘Where’s Wally’ – the children enjoyed finding Wally all day with their teachers. The year 6 team loved the effort the children put into their costumes this year! The children finished world book day with a story from one of the teachers in the school.
