

Year 6 Blog – week commencing 04.12.23

Assessment Week - Practice makes perfect!

This week was assessment week for Year 6 and they have worked incredibly hard under test conditions. We have seen some amazing progress made by the whole of Year 6 in such a short space of time and have earned a well deserved rest this weekend!

In computing the children were working together in groups completing their party planning spreadsheets. They showed great teamwork and collaboration using the sigma function to find the total costs and the cost per person.

In French the children have been working on their Ma Famille double page spread using everything they have learnt from this half term. The children have been growing in confidence in using accurate possessive adjective words for 'my' when introducing male, female or both members of their family.

The children also completed a fantastic diagram of Anne Frank's annex in our History lesson this week. The children were very proud to showcase their work.

Overall a very busy week and Year 6 should be very proud of everything they have achieved this week.
