

Year 3 Blog - Week commencing 10th June 2024

Making Tacos!

This week, Year 3 have enjoyed completing their design and technology unit making Tacos. They explore which ingredients they would need to use to make it authentic then planned out how they would create it and followed a set of instructions carefully to ensure everything was done correctly. This included chopping, grating and stirring different ingredients. Finally, they got to put all ingredients together and make their own tacos and eat them, which everyone enjoyed the most! Below are some pictures of what they got up to.

In English, the children have been writing their own narratives of the story of Disney's Coco. They have enjoyed using parts of the film for inspiration and including lots of descriptive language and inverted commas in their writing.

In geography this week, the children have been comparing and contrasting parts of the UK with Mexico. They looked at the landscape and land types then compared Chalkwell beach with a beach in Mexico.
