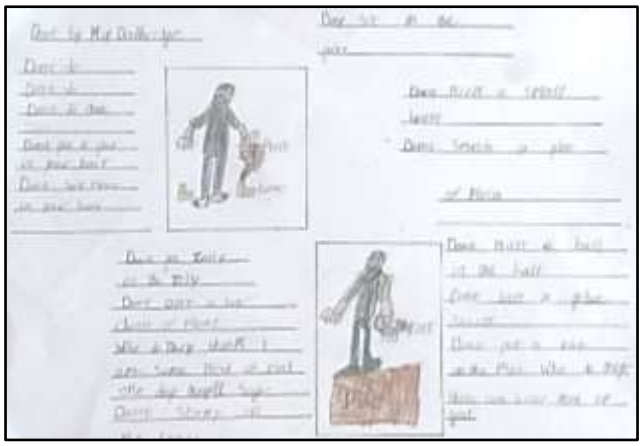
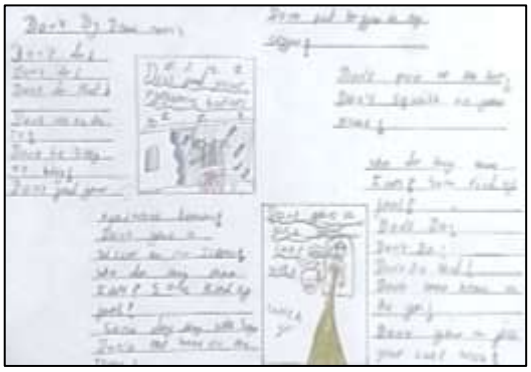
Year 3 Blog - Week commencing 7th May 2024

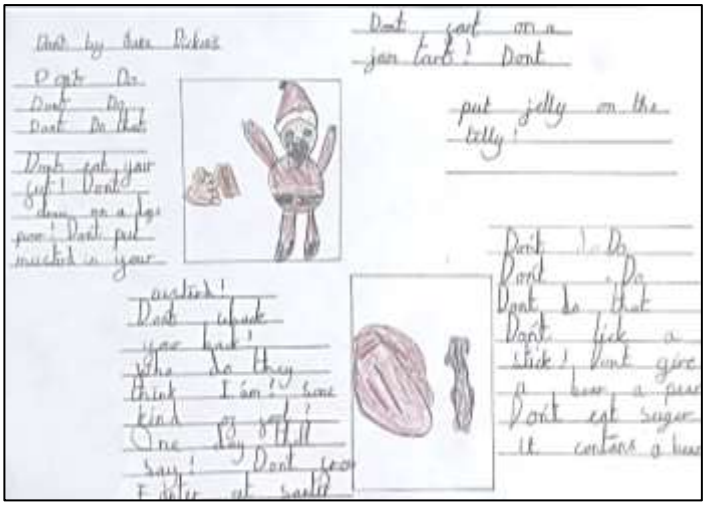
Michael Rosen's Playful Poetry Inspirations

This week was filled with exciting learning experiences for the Year 3s! They published fun and imaginative poems in Writing, drawing inspiration from the works of Michael Rosen. The learners then immersed themselves in a new topic centered around the enchanting Disney movie, Coco, igniting their creativity and insight into Mexican culture.

Meanwhile, in Maths, the focus was on fractions. The Year 3s worked very hard to add and subtract fractions, as well as understand and calculate fractions of amounts.

Expanding their French knowledge, the children eagerly added five new fruits to their vocabulary. They enjoyed engaging activities that allowed them to practice both verbal and written French.






In RE, the children have been exploring the teachings of Buddhism, and unpacking concepts such as the eightfold path, which Buddhists use as a guiding framework for living a good and kind life.
