

Year 3 Blog - Week commencing 22nd April 2024

Our own bicycle adventures!

In our Maths lessons this week, the Year 3 children have been learning about mass and capacity. This involves not only understanding how to convert grams to kilograms and milliliters to liters but also the practical applications of these conversions in real-world scenarios.

In History, the learners have embarked on an exciting journey back in time to explore the Mayan civilization. They have started to uncover the rich tapestry of Mayan culture, including where and when they lived, their temples and foods they ate.

Bonjour! In our French lesson, the class has been learning the names of various fruits. From pommes to bananes, they've expanded their vocabulary while exploring the vibrant world of French cuisine.

In Writing, our learners have been harnessing their creativity through descriptive narratives centered around the theme of 'The Boy who Biked the World'. This time, children have told their own bicycle story. They made use of the 'story mountain' framework to ensure they have an introduction, a buildup, a problem, resolution, and conclusion. There been many with imaginative tales, with bike journeys to destinations such as the beach, Disney World, Lego Land, and Adventure Island.
