

## Year 3 Blog - Week commencing 18<sup>th</sup> March 2024

### Creating photo frames

This week Year 3 have been designing and creating their photo frames. They started off by measuring using a ruler and carefully used a saw to saw the wood into 4 pieces. The children worked carefully and safely to use the saws.

In maths, the children have been working on length and perimeter. They have been learning how to use a ruler to measure in centimetres and then adding them together to find the perimeter.

In writing, the children have been learning more about refugees and exploring how they are being supported throughout the world. The children will be working on writing a persuasive letter to the King linked to our topic book 'The Boy at the Back of the Class'.
