

Year 3 Blog - Week commencing 8th January 2024

Empowerment!

Welcome back! This week, year 3 have enjoyed beginning their new topic of Empowerment. They completed their hook day which included making crowns, having a go at a Tudor quiz and a talent show called Tudors got Talent. The children really enjoyed using their talents and different skills to show them off.

In science, the children were exploring different soil types and had a go at completing an experiment to see which soil type was the best drainer and soaker. They did this by placing some soil in a funnel and pouring 100ml of water through it. They then measured the amount of water that got through. If more water went through then it was a good drainer, if less water went through then it was a good soaker.

In English, the children have begun a new writing topic based on Paddington's adventures. They have read the beginning of the story of Paddington and began sequencing the story around this. As well as, creating freeze frames based on a part of the story. Below are some pictures.
