

## Year 3 Blog - Week commencing 04.12.2023

### Adventures to the South Pole

This week in Year 3, we have been looking at instructions. The children have been identifying the key features used in instructional texts to help them write their own. We looked at 'How to be a mighty explorer' as well as 'How to make an alien's sandwich'. The children were able to spot the key aspects including imperative verbs and time conjunctions! Then, they began writing their own instructions for how to get to the South Pole as an explorer.

In DT this week, we have been continuing with our sewing. The children have been using the various sewing techniques to make an eye-catching design for their cushion. For example, the running stitch, the enhanced running stitch as well as half and full cross stitches. We can't wait to show you the finished product!

In maths this week, we continued with our topic 'Addition and Subtraction'. The children have been trying very hard to estimate answers and use inverse operations.

The children enjoyed their Christmas Dinner Day this week and looked very festive in their Christmas jumpers! Check back next week to see what we get up to!

The Year 3 Team 😊
