

Year 3 Blog - Week commencing 30.10.2023

Pop! Whizz! Bang!

This week the children have been learning about shape poems in English. They have been exploring the fireworks and bonfire night theme and creating expanded noun phrases and onomatopoeia to describe and create visual imagery in the readers minds whilst reading their poems. Below are some examples of the children's shape poems.

The children have also been completing their Changing me topic in PSHE. In Year 3, the children have been learning about what a baby need to survive and grow, the changes both boys and girls go through during puberty and the stereotypical ideas of a family and roles of parenting. The children worked hard in their lessons and were very sensible.

In maths, the children have been continuing their addition and subtraction topic learning how to add 1s, 10s and 100s to a number.
