

Year 3 Blog - Week commencing 16.10.2023

‘Walking to the church!’

This week in Year 3 we went on our local area walk to the church! The children walked sensibly in their groups and saw lots of human and physical features on their journey. Once we entered the church, we went on a treasure hunt to spot the different features and we were able to ask Father any questions we had linking back to our RE topic. We even performed a harvest song that we had been practising in our classes! The Year 3 team were very impressed with the children during our first trip at the Juniors and would like to thank all of our parent helpers for coming along and supporting!

In history this week, the children have been learning about the daily lives of the Anglo-Saxons. The children used their Chromebooks to research the different roles in the Anglo-Saxon village including hunters, farmers, weavers and chefs. The children then created a role play in groups to act out a typical day in this village which we then performed to the class.

In writing this week, the children have finished writing their letters from the perspective of Planet Earth to the humans to help save the planet! The children enjoyed implementing what we have learnt about imperative verbs and rhetorical questions within their work and have been concentrating on their best handwriting!

We hope the children have enjoyed their first half term at the Junior School and have a well-deserved break!

The Year 3 Team
