

Year 3 Blog – Week Commencing 05.09.2023: Exploring History

This week year 3 have been continuing their new topic of explorers. They have enjoyed using the giant timeline outside to find and order historical civilisations and events. As well as this, they have been exploring the UK in geography and identifying both human and physical geography within our local area.

In maths, they have begun place value and have started representing and partitioning numbers to 100 using place value grids, base 10 and art whole models.

In PE this week, the children enjoyed taking part in a range of activities including, dribbling a football, hurdles, throwing and catching, rugby, balancing a tennis ball and dribbling in hockey.
