

Year 3 Blog – Week Commencing 10.07.2023: Amazing Animations

This week Year 3 have been continuing their computing animation by designing and creating their Mexican jungle scenes using a range of resources including tissue paper, pipe cleaners and different coloured paper. Below are some examples.

They have also started the topic statistics in maths and have been collecting and representing data using pictograms. The children decided on a diagram which could represent each number.

Also, we have finished our non-chronological report about the day in the life of a Mayan. The children worked hard to include all of the facts they had learnt and included a range of features.

Year 3 have enjoyed learning a song from the Disney film Coco and head, shoulders, knees and toes in French ready for the International Picnic. This will be recorded and shared on the Google Classroom on Monday.
