

Year 3 Blog week commencing 26.06.2023 - Mexico and Mayans

This week in Year 3, we had a special visitor in school to teach us all about the Mayans. We learnt how to build the Chichen Itza using different resources. The children enjoyed building this famous Mexican landmark and working together as a team!

In maths, we continued looking at shape. We learnt all about perpendicular and parallel lines as well as looking at 2D shapes.

In RE this week, we started our new topic 'Christianity'. The children looked at the Rites of Passage and discussed their ideas as a class.
