

Year 3 Blog - Week commencing 27.03.23: Making Italian pesto pasta

This week, year 3 have enjoyed taking part in Roots to Food led by Darren. They children had the chance at making their own pesto pasta dish. They learnt how to correct hold the knife and cut vegetables correctly. They then placed their meal onto the plate and got to try it. Below are some pictures of them making it.

Year 3 have also been writing a narrative linked to a Now Press Play story they took part in last week about a group of children who go on a school trip to Buckingham Palace and find that the King has been kidnapped by Dr Disguise and they need to find the 4 symbols of the UK to help him escape. They have enjoyed being creative with their stories.

In geography this week, the children have been reading fact files about different famous empowering people and have then plotted onto a map which country they are from.
