

Year 3 Blog - Week commencing 20.03.2023: Lego Kiki the Dog

This week year 3 have been enjoying taking part in a Lego Spike project where they have been learning to use it and had a go at following instructions to build Kiki the dog. Below are some examples of what they have built.

We have also begun our new topic of writing based on a Now Press Play story around Buckingham Palace. The children took part in the story using the Now Press Play headphones and then have been watching a virtual tour of Buckingham Palace to create vivid descriptions of it.

In DT the children have been using saws and glue guns to create their own photo frames. They carefully sawed the wood and used the glue guns to stick it together with support from adults.

Have a wonderful weekend all!
