

Year 3 Blog - Week commencing 13.03.23: Women in STEM

This week year 3 have enjoyed taking part in a virtual dance session as part of Red Nose Day. They enjoyed learning a dance with many other schools from the local area. They also enjoyed coming into school dressed up in their best Mr Men and Little Miss characters.

Year 3 have also been working on a persuasive letter writing to the King to persuade them to keep the gates open. They worked hard to include rhetorical questions, emotive language and the rule of 3. Below are some examples.

As it is science week, we have been studying women in STEM. The children completed research on a chosen scientist and created a set of Google Slides.
