

Year 3 Blog - Week Commencing 20.02.23: Finding the Perimeter!

This week, year 3 have enjoyed continuing their topic on length and perimeter in maths. They have enjoyed working out the perimeter of different classroom objects in both millimetres and centimetres. They have also worked out how to convert measurements between millimetres, centimetres and metres.

In English, the children have enjoyed exploring different types of poetry. They explored many poems by a poet called Joshua Siegal. They enjoyed reading and performing some funny poems before they then had a go at writing their own poem about a topic of their choice. Below are some examples.

The children really enjoyed their pancake tossing competition this week! The children had one minute to toss as many pancakes as they could. The winners were Stanley in 3LJ, Musa in 3RE and John in 3CC.
